What are the locations and times that the bride and groom will start the day to get ready?
We need the addresses for each location and a start time for each.

Any rules at ceremony location we need to know about? Please list them here:

Please list any items of interest we need to know:

During a typical wedding day, with 2 photographers, we will take enough pictures to post between 1500 – 3000 or more pictures. Many of these pictures are very similar as they might have been taken a few seconds apart. Would you like all of these pictures posted online or would you prefer me to post what I consider the best of the best to limit the number of pictures you have to go through online? Whatever pictures we post online will be the ones made available to you on your DVD set.

Please list any special photographs you would like us to concentrate on getting for you:
